Online Food Ordering App :

This flowchart represents the complete working process of an Online Food Ordering Application, starting from user login to order delivery tracking.

1 Application Start

- The process begins when the user **opens the app**.
 - The system checks whether the user is an **existing user** or a **new user**.
-

2 User Authentication

► If Existing User:

- The user selects **Sign In**.
- Enters login credentials (username/email & password).
- After successful authentication, the user is directed to the **Home Page**.

► If New User:

- The user selects **Sign Up**.
 - Enters required details (name, email, phone number, password, address).
 - After registration, the user is redirected to the **Home Page**.
-

3 Searching for Food Items

From the Home screen, the user can search for dishes in two ways:

► Using Search Bar:

- User enters the dish name.
- The system displays matching results.

► Browsing Menu:

- User opens the menu screen.
- Views available dishes by category.

- Selects a dish from the list.
-

Viewing and Customizing Dish

- After selecting a dish, the user can:
 - View dish details (price, description, ratings).
 - Customize options such as:
 - Size (Small/Medium/Large)
 - Quantity
 - Add-ons (extra cheese, toppings, etc.)
 - The customized item is then added to the **Cart**.
-

5 Cart Management

- User views the **Cart Screen**.
 - Can:
 - Add more items
 - Modify quantity
 - Remove items
 - User decides whether to:
 - Continue ordering (go back to menu)
 - Proceed to checkout
-

Checkout Process

If the user chooses to proceed:

- The system opens the **Checkout Screen**.
- User enters delivery details:
 - Address
 - Contact number
 - Special instructions (if any)

- The user confirms and proceeds to payment.
-

7 Payment Process

The system provides two payment options:

► **Pay on Delivery**

- User selects cash/card on delivery.
- Order is directly confirmed.

► **Online Payment**

- User enters card details.
 - Payment is processed securely.
 - After successful payment, order is confirmed.
-

8 Order Confirmation

- The system generates an **Order Confirmation**.
 - Order details and invoice are displayed.
 - User can view order under **My Orders** section.
-

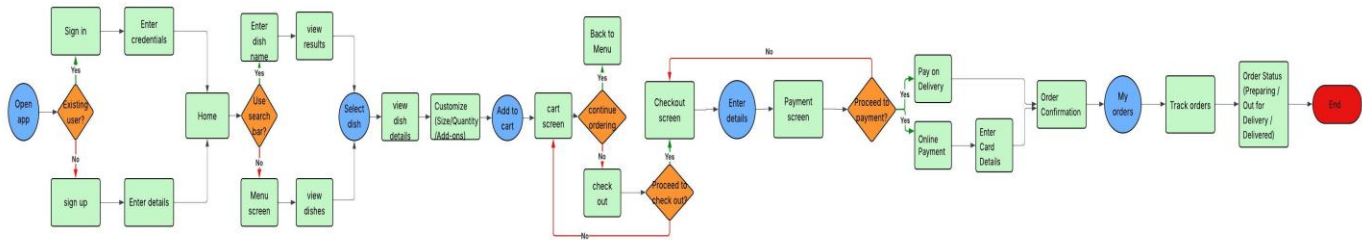

9 Order Tracking

- User selects **Track Orders**.
 - System displays real-time status:
 - Preparing
 - Out for Delivery
 - Delivered
-

10 Process End

- Once the order is successfully delivered, the process ends.
